EXPERIENCE

Frontend Developer

Alaa Eldin Alhallak Company · Feb 2026 – Present

- Architected reusable React component libraries, standardizing shared UI patterns across projects.
- Developed fully responsive, mobile-first interfaces ensuring consistent UX across all viewports.
- Optimized page performance via code-splitting, lazy loading, and asset optimization.
- Translated design mockups into pixel-accurate, production-ready frontend components.
- Maintained modular codebase with clear separation of concerns for faster iteration.

PROJECTS

Linea — E-Commerce Platform

[my-linea-main.netlify.app](#) · [React](#) · [CSS](#)

Full-scale e-commerce frontend with component-driven architecture, product filtering, cart management, and checkout flow. Reusable components and state management patterns.

Kiddy — Baby Products Store

[my-kiddy.netlify.app](#) · [React](#) · [Bootstrap](#)

Responsive e-commerce storefront with dynamic product rendering, category filtering, and mobile-optimized UI.

Sokak Sofrasi — Backend System

[sokak-sofrasi-production.up.railway.app](#) · [Laravel](#) · [PHP](#) · [MySQL](#)

Full backend system using Laravel (MVC architecture), relational data modeling in MySQL and RESTful routing — demonstrating full-stack awareness that strengthens frontend architectural decisions.

AI Chatbot — Frontend Interface

[github.com/MuhammedKher2008/ai-chat](#) · [HTML](#) · [CSS](#) · [Bootstrap](#) · [JS](#)

Minimal, responsive chatbot UI with real-time message rendering and conversational UX patterns.

DownlyVideo — Video Downloader

[github.com/MuhammedKher2008/downlyvideo](#) · [HTML](#) · [CSS](#) · [Bootstrap](#)

Contributed Services section frontend as part of a small team. Implemented section layout and responsive behavior.

UI/UX Templates & Layouts

Client-facing HTML/CSS/Bootstrap/JS templates for real-world use cases:

Game Tokens (x2) [github.com/MuhammedKher2008/gametokenstemplate](#) — Two conversion-focused landing pages for in-game token purchase flows.

Mesquita Foz (x2) [github.com/MuhammedKher2008/template2Mesquitafoz](#) — Dual institutional templates for a religious organization with accessible, structured layout.

SKILLS

Core

HTML5, CSS3 JavaScript (ES6+) React

UI

Bootstrap Responsive Design
Mobile-First Component Architecture

Secondary

TypeScript (Familiar) PHP (Familiar)
Laravel (Familiar) MySQL (Familiar)
